

USGS DOQQs are portrayed for the Yale Point area. The yellow overlay is your Fig. 2 from CR-90-A. The black boxes are the mapped claims from the Rough Rock Slope Claims Certification Report.

Is the red box above a good location and an appropriate size for the Dan Taylor No. 1 mine? We placed it on what appears to be the ore horizon and in the neighborhood of the MP-288 claim.

Also what is the feature in the upper left?
